Dedham, Sept. 9. 47.

Dear Mr. Chadwick:

I send you a letter received from Sydney last night. A hundred dollars is a sum of money, - but whether it will not be amply earned by this healthy advertisement always before our eyes, may give us pause. Ponder, Perpend & Pronounce.

When can you attend a Board Meeting, with Anne & Caroline to consider the matters suggested by S. also the matter not suggested by him; viz. whether anything, if anything, about it, should be done to watch at the Hewitt temple? If anything be done, it should be at the very first meeting of the B.d after the article appeared, - about will be the next. Hold a Council

5/

on the subject & come to what conclusion you both can. Wendell will be at the meeting. I have written to him to know when he can come in. I shall be in on Tuesday; but will go in at any other time, & indeed on Tuesday I can have about as much as I could do. I could stay in the evening, however. If the Howitt matter comes up, we will have plenty of time to talk it over.

As to Sydney's idea about a Loan, I take it that is the very thing we do now. I apprehend the money Lathrop furnishes is not his own private cash - unless he have some on hand to put out at interest, but money borrowed, under the power given him for that purpose. That is nothing but his Conditional Pr.

I like your Phenix point well about the Londoners - only it will have been a little too late had the article been written that week. But I could not find the London Register or other documents I wanted,

see both the Medical Powers as leaders.
If I can get documents, a Law may be
drawn me, I may get it off. But
my time is short, therefore I must refer
all the rest formerly.

Yours in haste, with love to
all the Sisterhood & daughterhood.

Emma Tenney

W. H. C. Chairman.
